PROFESSIONAL SUMMARY

Results-driven MERN Stack Developer and Technical Trainer with 1-2 years of experience building scalable full-stack web applications and delivering hands-on technical training in MongoDB, Express.js, React.js, and Node.js. Proven track record of teaching HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB, Git/GitHub, REST APIs, and JWT Authentication to students, guiding them through building complete full-stack applications from scratch. Skilled in curriculum delivery, classroom training, mentoring, code review, and technical interview preparation, combined with hands-on industry experience developing HRM, LMS, and Event Management systems. Passionate about simplifying complex technical concepts and empowering aspiring developers to become industry-ready professionals in Agile development environments.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap 5, Redux Toolkit

Backend: Node.js, Express.js, MongoDB, Mongoose, MySQL, REST API Design, JWT Authentication

Tools & Platforms: Git, GitHub, Vercel, Figma, Postman, VS Code, Cursor AI, Claude Code, Antigravity, Windsurf AI

Training & Instruction: Curriculum Delivery, Classroom Training, Mentoring, Technical Instruction, Code Review, Problem Solving, Agile Methodology

PROFESSIONAL EXPERIENCE

MERN Stack Trainer

6 Months

Appex IIT

Qasimabad, Sindh, Pakistan

- Delivered live classroom training on the MERN stack (MongoDB, Express.js, React.js, Node.js) to aspiring developers, covering HTML5, CSS3, JavaScript (ES6+), Git, GitHub, REST APIs, and JWT Authentication.
- Guided students in designing and building complete full-stack MERN applications from scratch, reinforcing best practices in React component architecture, state management, API integration, and database design.
- Conducted hands-on coding labs, debugging sessions, assignments, and project reviews, mentoring students on full-stack integration and real-world application.
- Coached students on technical interview preparation, improving problem-solving skills and coding interview readiness.
- Evaluated student performance and provided continuous, constructive feedback to support skill progression and course outcomes.

Freelance Full Stack MERN Developer

2024 - Present

Self Employed

Remote

- Delivered custom full-stack web applications for personal and university connections using React.js, Next.js, Node.js, Express.js, MongoDB, and Tailwind CSS.
- Built HRM, LMS, and Event Management applications end-to-end, including database schemas, RESTful APIs, and responsive, reusable UI components.
- Designed and implemented secure authentication and role-based authorization flows using JWT across frontend and backend layers.
- Collaborated on real-world client projects, delivering scalable, high-performance full-stack solutions on schedule.

Full Stack Developer Intern

04/2026 - 06/2026

Technify Software Development

Hyderabad, Pakistan (On-site)

- Developed responsive web applications using React.js, Next.js, JavaScript, and Tailwind CSS, integrating RESTful APIs with JWT-based authentication.
- Collaborated with backend developers on API design and data flow using Git and GitHub, following Agile methodology.
- Contributed across the stack, bridging frontend components with backend endpoints for consistent, reliable functionality.

Full Stack Developer Intern

02/2026 - 05/2026

WholCure

Remote

- Developed reusable React.js and Next.js components styled with Tailwind CSS, integrated with backend REST APIs using Axios and Fetch.
- Improved application responsiveness and performance across desktop, tablet, and mobile devices.
- Participated in sprint planning, code reviews, and Git-based version control workflows.

PROJECTS

HRM System — MERN Stack (Node.js, Express.js, MongoDB, React.js, Tailwind CSS)

- Developed a full-stack HR management platform using MongoDB, Express.js, React.js, and Node.js with JWT authentication.
- Built 10+ RESTful APIs and full-stack HR modules, enabling secure and efficient employee data management.

LMS — Learning Management System (Node.js, Express.js, MongoDB, React.js, Tailwind CSS)

- Built a full-stack LMS using the MERN stack with secure authentication, course management, and support for 100+ enrollments.
- Implemented full-stack CRUD functionality using the MERN stack with Mongoose schema validation.

EDUCATION

Bachelor of Computer Science

2022 - 2025

University of Sindh
